

Iterate obj using For-in

```
let obj={
  "name":"yaswanth",
  "class":"8r",
  "location":"hyderabad",
  "institute":"10000 coders"
}

for(i in obj){
  console.log(obj);
}
```

Output:- {

name: 'yaswanth',

class: '8r',

location: 'hyderabad',

institute: '10000 coders'

}

```
let i; let obj={
  "keyname":"yash",
  "keyaddress":"hyd",
  "key institute":"10k",
  "key state":"tg",
}
for(i in obj){
  console.log(obj[i])
}
```

Output:- yash

hyd

10k

tg

```
let i; let obj={
  "keyname":"yash",
  "keyaddress":"hyd",
  "key institute":"10k",
  "key state":"tg",
}
for(i in obj){
  console.log(i + " : " +obj[i])
}
```

Iterate obj using For-in

Output:- keyname : yash

keyaddress : hyd

key institute : 10k

key state : tg

iterative obj using for-of:-

```
let obj={
  "keyname":"yash",
  "keyaddress":"hyd",
  "key institute":"10k",
  "key state":"tg"
}
for([key] of Object.entries(obj)){
  console.log(key);
}
```

Output:-

keyname

keyaddress

key institute

key state

```
let obj={
  "keyname":"yash",
  "keyaddress":"hyd",
  "key institute":"10k",
  "key state":"tg"
}
for([key,values] of Object.entries(obj)){
  console.log(key+"."+values);
}
```

Output:-

keyname.yash

keyaddress.hyd

key institute.10k

key state.tg
